

CINTYA HUAIRE

Data Specialist | Policy Analyst | Digital Innovation

edithuaire@gmail.com | +356 79655302

LinkedIn | Portfolio

TECHNICAL SKILLS

Data Analytics & Visualization: Power BI (advanced: DAX, Power Query, data modeling), Tableau, R (data.table, ggplot2, statistical modeling), Python (Pandas, NumPy, data analysis), STATA (econometric analysis)

Database & Query Languages: SQL (IBM certified - in progress), data integration, ETL processes

Automation & Digital Tools: Power Automate, n8n, Zapier, AI-driven workflow optimization

Survey & Spatial Analysis: SurveyCTO (survey design & deployment), QGIS (spatial data analysis)

Languages: Spanish (Native), English (C1/TOEFL), French (B1), German (A1)

EDUCATION & CERTIFICATIONS

MicroMasters: Data, Economics, and Design of Policy (DEDP) | *Massachusetts Institute of Technology (MIT)* | January 2025 - April 2026 (In Progress)

Master of Public Policy | *Hertie School, Berlin, Germany* | August 2021 – June 2023

Thesis: Impact of Women's Participation in Politics on the Development and Implementation of Progressive Care Policies in Latin America and the Caribbean (Python, R, panel data analysis, machine learning)

Bachelor in Economics | *Universidad del Pacífico, Lima, Peru* | March 2012 – September 2016

CERTIFICATIONS

SQL for Data Science | IBM (Edx) | *November 2025 - January 2026 (In Progress)*

STATA for Economists | Certified

Documenting Development Data Using Metadata Standards | Certified
Specialized training in data governance and documentation standards

The Challenges of Global Poverty | MIT (EdX) | Certified
Economic analysis of poverty and development interventions

TOEFL | Certified (English Proficiency)

PROFESSIONAL EXPERIENCE

Junior Professional Officer – Modernization and Digital Innovation

International Centre for Migration Policy Development (ICMPD) | *Valletta, Malta* | September 2024 - Present

- Developed modular, stakeholder-oriented Power BI dashboards serving 4+ country offices, integrating data from 12+ sources covering migration project data for donor reporting
- Designed automated data flows that reduced reporting time by 40% and improved decision-making speed by 25% across regional projects; created executive-level and operational-level dashboard views using advanced DAX formulas and Power Query transformations
- Conducted comprehensive cost-benefit analyses of AI tools (including CAT solutions), guiding technology integration strategies and resource allocation for EUR 80K+ digital transformation portfolio
- Designed and deployed performance evaluation surveys to measure operational impact of digital tools across 8 country programs; piloted AI-driven reporting interventions for high-level events, improving turnaround time by 50%

Research & Data Intern – Forced Labour Focus

International Labour Organization (ILO) | Geneva, Switzerland | Feb 2024 – Aug 2024

- Conducted advanced statistical analysis using STATA on household survey data, identifying patterns in forced labour prevalence with 95% confidence intervals
- Played key role in research design for forced and child labour studies, developing sampling methodologies and variable selection frameworks
- Delivered actionable insights for high-priority project commissioned by Canadian government, mapping prevalence of forced labour in Canadian supply chains across 12 industrial sectors
- Produced data visualizations and statistical reports for academic publication and policy briefs presented to government stakeholders

Social Policy & Data Intern

UNICEF Latin America and the Caribbean | Panama, Remote | Oct 2022 – Jul 2023

- Systematized multi-country social policy data to identify key concerns impacting children, analyzing datasets from 18 LAC countries covering child welfare indicators
- Contributed to research and drafting of technical paper: "Los Sistemas de Cuidado y Apoyo en América Latina y el Caribe: un marco para la acción de UNICEF"
- Designed and managed knowledge-sharing tools including data newsletters (MailChimp), organized 6 technical webinars with 200+ participants, and maintained social media analytics
- Coordinated with 15+ regional offices on data collection and reporting standards

Public Policy Consultant

Ministry of Housing, Construction and Sanitation (Peru) | Lima, Peru | Jan 2021 – Jul 2021

- Systematized socioeconomic indicators for 94,922 populated centers using R, QGIS, and STATA to create the National Plan for Management and Integration of Populated Centres
- Developed geospatial models integrating census data, infrastructure metrics, and economic indicators across 1,800+ districts
- Conducted policy impact evaluations using difference-in-differences methodology, recommending reclassifications that enabled equitable resource distribution reaching 8M+ rural inhabitants
- Co-authored two technical papers serving as national guidelines for territorial occupation analysis

Economic Consultant

Ministry of Economy and Finance (Peru) | Lima, Peru | Feb 2020 – Dec 2020

- Redesigned comprehensive dashboard using Tableau and Power BI to monitor execution of national transportation and communication projects valued at USD 2.56 million
- Managed databases for global report on administrative workload as part of Treasury System reformulation in collaboration with the International Monetary Fund (IMF)
- Coordinated data collection and alignment across Ministries of Labour, Transport, and Education, ensuring standardized reporting across 25+ government entities
- Created automated reporting systems that reduced manual data compilation time by 60%

Economic Consultant

Ministry of Education (Peru) | Lima, Peru | Feb 2018 – Jan 2020

- **Award-Winning Platform:** Co-led design and implementation of "Mi Mantenimiento" digital platform guiding 54,000+ school principals in managing infrastructure budgets; received 2019 Good Practices in Public Management Award (Ciudadanos al Día); now integrated into national policy framework serving 100% of public schools nationwide
- Designed data-driven allocation methodology for USD 101 million cash-transfer program, optimizing infrastructure investment decisions across 50,000+ schools; improved budget execution compliance by 15% through predictive modeling
- Developed performance indicators and digital monitoring tools, enhancing operational efficiency by 25% and ensuring 98% of schools met budget execution deadlines in Lima Metropolitan Region
- Created automated data validation systems processing 200,000+ administrative records annually, resulting in 50% reduction in time required for infrastructure interventions

Junior Analyst

Metis Gaia S.A.C. | Lima, Peru | May 2017 – Dec 2017

- Conducted qualitative and quantitative analysis using STATA and Excel on mining impact projects involving 3,000+ community members
- Managed IRB protocol compliance, survey programming (SurveyCTO), and data cleaning workflows
- Planned, supervised, and conducted fieldwork in rural areas for mining company “Chinalco,” developing culturally appropriate survey instruments and training 8 enumerators

OTHER RELEVANT EXPERIENCE

Consulting Director

180 Degrees Consulting | September 2023 – February 2024 | Berlin, Germany

- Supervised two teams of 5 student consultants each, ensuring quality project delivery aligned with social entrepreneurship goals
- Led client selection, relationship management, and mentor recruitment for social impact projects
- Facilitated training sessions on research techniques, data analysis, and digital tools for 20+ student consultants

SELECTED PUBLICATIONS

Huaire, C. et al. (2023). “Forging a Just Transition: Towards Green Jobs and Rights-Based Futures.” *UN Geneva Library*, pp. 169-217.

AWARDS & RECOGNITION

UN Graduate Programme (2023) - Selected Participant, Geneva, Switzerland | **DAAD STIBET Scholarship** (2021) - Merit-based scholarship for graduate studies | **Good Practices in Public Management Award** (2019) - Ciudadanos al Día for “Mi Mantenimiento” platform | **UNDP Hackathon S.D.G.** (2017) - Winning team with project “KILLKI”

KEY COMPETENCIES

Professionalism: Demonstrated analytical excellence in managing complex datasets with attention to detail and accuracy; proven ability to apply judgment and manage conflicting priorities; track record of quality-checking work and taking responsibility for gender-inclusive approaches

Communication: Clear written and oral communication evidenced by publications, stakeholder presentations, and cross-cultural collaboration; tailored communication to technical and non-technical audiences

Planning & Organizing: Developed clear goals and identified priority activities across multiple concurrent projects; monitored and adjusted plans as necessary; demonstrated foresight in risk management and resource allocation

Teamwork: Collaborated effectively across international teams (ILO, UNICEF, ICMPD); coordinated with government ministries, NGOs, and academic institutions

Client Orientation: Designed user-centric digital platforms and dashboards; ensured data products met stakeholder needs and supported evidence-based decision-making
